COLIBRÌ

Powder coatings with iridescent color-changing pigments

1. TECHNICAL INFORMATION

● PRODUCT FEATURES

The powders of the *Colibrì* series are made with special iridescent pigments, that change color depending on the angle of incidence of the light on the powder coated surface. The change in tonality and the different colors that one *Colibrì* powder can show is really dramatic and makes this product definitely unique, both for the elegance of the light effects that can be observed, and for the feature of their pigments, incomparable to any other product.
